## Risk Management Process: foresight in support of the Strategy

Identify a
complete set of
holistic Territory
risks linked to
the delivery of
the Strategic
Agenda

Prioritize the identified risks using the risk matrix and agree accountability for managing key risks

Assess the key risks identified, understanding causes, consequences, controls and mitigating actions

Prioritize
mitigating
actions to a
manageable level
ad agree the
target risk level
for each key risk

to validate the assessment and progress of mitigating key risks, as well as identify new ones
