Universität Passau · 94030 Passau

**Short Bio:** Prof. Dr. Johann Graf Lambsdorff holds a professorship in economic theory at the University of Passau, Germany, since 2003. He studied mathematics and economics at the Universities of Frankfurt am Main and Göttingen, Germany. He devoted his dissertation to international macroeconomics and his habilitation to the economics of corruption. In 1995 Graf Lambsdorff designed the Corruption Perceptions Index on behalf of Transparency International and oversaw its production until 2008. He is globally recognized for his work on measuring corruption, the institutional and behavioral economics of reform. As a globetrotter and keynote speaker he visited many countries around the world. His research embraces topics in monetary and international macroeconomics as well as institutional and experimental economics. His books and articles were published by Cambridge University Press, European Economic Review, Experimental Economics, Economics of Governance, Journal of Behavioral Decision Making, Journal of Conflict Resolution, Journal of Economic Behavior and Organization, Journal of Economic Dynamics and Control, Journal of Economic Psychology, Journal of International Economics, Kyklos, PlosOne and Public Choice.
